# A Book Review

## Judy Moody Goes to College

This story is about a girl named Judy Moody. She has difficulty in mathematics and she sees a college student for help. Her tutor is named Chloe. Judy Moody goes to college to see Chloe and at her school she brags, because she goes to college.

I don’t like this book, because the book doesn’t represent good value and it’s for young kids. My favourite character is Chloe, because she is very beautiful and nice. My favourite part is when Judy Moody

goes to college for the first time, because the illustration is beautiful.

I recommend this book to young kids, because it’s a simple story.
